

MULTIPLE MATERIALS, MAXIMUM EFFICIENCY

2K + TECHNOLOGY

HIGH-PERFORMANCE MATERIAL COMBINATIONS

The integration of different materials, for example **plastic-rubber**, **metal-rubber**, and **plastic-LSR**, provides significant advantages.

These combinations enhance product performance, while also reducing production times and costs. This is particularly crucial in high-demand sectors like industrial, automotive and medical.

Our solutions operate within a wide temperature range, from -40°C to 200°C, ensuring reliability and versatility.
